***** ABSORPTION PROCESS MAKES FACES YOUNG *****

Success has at last come to scientists who for years have sought some method of removing the outer veil of facial skin in cases of unsightly complexion which would be both painless and harmless. The new process is so simple, so inexpensive, the wonder is no one had discovered it long ago. It has been simply demonstrated that common mercurized wax (sold by druggists in ounce packages) entirely removes, by gentle absorption, the withered, lifeless surface skin, showing the youthful rosie skin beneath. The wax is applied at night, like cold cream, and washed off in the morning. The absorption cleanses clogged pores, increasing the skin's breathing capacity and preserving tone, color and natural beauty of the new skin.

A simple and harmless wrinkle-remover which has also proved quite successful can easily be made at home in a jiffy. All one need do is to dissolve an ounce of powdered salicylate in a half pint of witch hazel and bathe the face in the solution once a day for awhile. After the very first application the finer lines disappear and the deeper ones soon follow.

PLANS FOR MILITIA ENCAMPMENT MADE AT HEADQUARTERS

Company M Proposes to Carry Past Record for Excellence Through Camp

The selection of the site for the annual encampment of the Oregon National Guard has not yet been announced and it is not probable that it will be given out until the state troops are mobilized and ready to move but all preliminary arrangements have been made for the largest camp ever held in the state.

Beginning Wednesday July 5 and Friday July 14 the militiamen will live in camp tents and perform all of the duties of a regular soldier according to the schedule prepared by Colonel McLaughlin.

Company M proposes to take the largest and best company to camp this year (that has ever been assembled in Oregon or in the whole United States for that matter. Company M with a total enlistment of 115 men and three officers is the largest militia company in the United States and it is the intention of the company and officers that this record be carried out in camp.

Since it will be necessary to recruit a few more men before the mobilization order is given. Now that the militia pay bill has passed and goes into effect July 1 the pay received for drill will prove some advantage to the militiamen. After July 1 the regulations change slightly for those who enlist after that date. When they receive federal pay they are under the same regulations as the regular army men and must comply with the same laws. Those who enlist prior to July 1 will be under the present militia regulations. The term of enlistment after July 1 increases to six years, three in active service and three in reserve and a number the men are hastening to enlist before the new regulations go into effect as this gives them all of the benefits of the increased pay but shortens their enlistment to three years as at present.

The pay in camp is \$1.25 per day for privates of which the state pays 75 cents and the government 50 cents. There is some question as to the amount of the federal pay this year but if the 50 cents per day from the government is not allowed the regular army pay that is allowed under the new law will make up the difference.

The camp schedule includes all of the drills of the soldier squad and company as well as battalion and regimental movements. In addition schools for non-commissioned officers will be conducted and lectures will be given by the regular army officers who will attend the maneuvers.

The schedule of the day begins at 5:30 with the first plaintive wail of the bugle and four hours in the forenoon are allowed for drill. Taps sound at 11 p. m.

The following is the full schedule of calls for the coming encampment:

First call for reveille, 5:30 a. m. Reveille, 6 a. m.

Assembly, 6:15 a. m. Mess call, 6:45 a. m.
